

Eleventh meeting

25th October 11:30am

Meeting begun

- Discussed Report Mark breakdown
- Sashen should put much on category 1
- Maybe everyone can out a few marks on category 2
- Weight heavily on category 3
- Don't weight on category 4
- Place 15-20 in category 5
- Keep category 6 relatively low

Everyone

- Discussed the problems of implementing battery measurement
- Spoke of hidden and private API, and the TO DO statements in APIs
- Gary suggested if we did battery test, look at Andrew Rice's work
- Write lots of English, drink lots of coffee
