

Meeting 23/05/2016 - Proposal presentation

-
- where will we find people to test, who? how will we get the numbers?
- What will happen after the project is completed
- Ethical slide has typo.
- scenario based testing whereby based on the scenario we will ask questions
- way forward = use it as a cyber security training tool & there is interest for funding.
- we need to video record proposal presentation
- Add three layer architecture picture earlier
- Send slides to francois and tommie
